

## RYOBI 3550 SERIES DOOR CLOSERS

Ryobi 3550 series is a versatile commercial door closer and one of the top closers in the Ryobi range.

- Fire rated
- Power adjustable from 2 - 6 strengths. This allows adjustments with the one closer to take door weights between 50kg up to 150kg.
- Pre set at a factory 3 setting (65kg)
- Non handed
- A built in delayed action feature that works from an opening of 180 degrees to 70 degrees, stays open at 70 degrees for a short period to allow access and then proceeds at normal speed to closing.
- Ideal for disabled entries
- Suitable for standard and parallel arm fixing options in the one box
- Supplied with adjustable closing and latching speeds
- Supplied with an adjustable backcheck feature
- Can be ordered with a hold open function if required but be aware that using the hold open function doesn't allow it to be fitted to a fire door
- Contains all season fluid to eliminate the need for seasonal adjustment
- Low opening resistance making it ideal for the elderly
- When using the parallel arm model the door weight capacity is reduced by 20% compared to the standard arm application
- Available in a silver finish
